LETTER OF INTENT
FOR CHANGE IN CONDITIONS AND SPECIAL USE PERMIT APPLICATIONS OF
HOWARD BROTHERS, INC.

Mahaffey Pickens Tucker, LLP submits this Letter of Intent and attached Change in Conditions and Special Use Permit Applications (the “Applications”) on behalf of Howard Brothers, Inc. (the “Applicant”), related to an approximately 2,489-acre property situated along Pleasantdale Road just off of Buford Highway (U.S. Route 23) (the “Property”). The Property is currently zoned M-1 and contains two main metal buildings with accessory structures. Specifically, the Applicant is requesting the change in conditions and special use permits for “Maintenance Shop” and “Truck Storage Lot” to allow the use of the Property as an automobile/truck inspection facility.

The Property was originally rezoned to M-1 in the 1980’s and has been consistently utilized for industrial-related uses since. The Property is surrounded by commercial and industrial uses including automobile repair, service stations, contractor’s offices, and manufacturing. The two main metal buildings on the Property each have roll-up garage doors and can be accessed internally by vehicles. The Property also includes mixed parking areas consisting of paved asphalt and gravel surfaces.

The Maintenance Shop and Truck Storage uses are secondary to the main proposed use of an automobile/truck inspection facility. Pursuant to existing state and federal regulations,

commercial vehicles must be periodically inspected. Inspectors check various vehicle components including brakes, coupling devices, exhaust systems, fuel systems, lighting devices, and loading systems. The proposed inspection service would also complete occasional necessary maintenance or repairs as identified by inspections.

The surrounding area is characterized by heavy commercial and industrial uses. Across Buford Highway there is an equipment rental business as well as a construction aggregates supplier with active rail spur and associated loading facilities. To the south across May Road is an additional construction materials supplier with rail spur and associated loading facilities as well as multiple warehouses buildings. The proposed use is compatible with the policy and intent of the 2030 Plan which encourages land uses that are compatible with surrounding development. The proposed gravel parking lot and truck and trailer parking is compatible with existing heavy commercial and industrial uses

The Applicant and its representatives welcome the opportunity to meet with staff of the Gwinnett County Department of Planning & Development to answer any questions or to address any concerns relating to the matters set forth in this letter or in the Applications filed herewith. The Applicant respectfully requests your approval of the Applications.

Respectfully submitted this 1st day of February, 2019.
