

Suncatcher Craft

Supplies needed

- Supplies
- Mason jar ring
- Coloring page printout
- Colored pencils
- Scissors
- Paper towel
- Vegetable oil
- Cotton ball
- Twine

Step one

Place the mason jar ring face down on the coloring page. Trace a circle outside the jar ring.

Step two

Color the image inside the circle.

Continued on back

Suncatcher Craft

Step three

Cut out the circle.

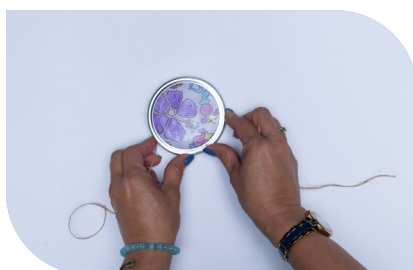

Step four

With a paper towel on the table, dip a cotton ball into the vegetable oil. Rub the vegetable oil over the colored cutout. A few swipes over the circle is enough (this will make the paper more transparent) and allow it to fully dry.

Step five

Once dry, put glue inside the mason jar ring. Turn the image upside down and place inside the lid. Allow the glue to dry.

Step six

Tie a piece of twine around the lid to hang from a window. See the light shine through!
